

The 'William' song

[(c) Julie Leonard 2022]

There's a little caterpillar everybody loves,
William, William.
He can solve a problem and make it work for us,
William, William.

Chorus

Like peas in a pod, he's shiny and green,
Eight pairs of legs, eight pairs of feet,
He can eat a cabbage leaf lying on his back,
You'll find him in the garden beside the daisy track...
He's William, William!
The bravest,
Fastest,
Smartest,
Greenest,
Strongest caterpillar in the world!

If you're feeling lonely, come and talk to him,
William, William.
He can make you laugh and give your face a grin,
William, William.

Chorus

He's curious to know about the whole wide world,
William, William.
He sparkling with laughter and he'll leave you in a whirl,
William, William.

Chorus

He's super multi-functional hanging from a twig,
William, William.
His future's bright and beautiful without a negative,
William, William.

Chorus
